

# DAY 365

## *The Day Jahuwah Started Counting*

And in those days, Noah SAW the EARTH HAD TILTED  
and that its destruction was near.  
Enoch 65:1

**Enoch 65:2** And he set off from there and went to the ends of the Earth and cried out to his great-grandfather Enoch; and Noah said three times in a bitter voice: “Hear me, hear me, hear me!”

**Enoch 65:3** And he said to him: “Tell me, what is it that is being done on the Earth, that the Earth is so afflicted and shaken, lest I be destroyed with it!”

**Enoch 65:4** And immediately there was a great disturbance on the Earth and a voice was heard from Heaven and I fell upon my face.

How did Noah “see” that the earth was tilted? By the signs in the heavens! The heavenly lights had changed from Noah’s perspective on earth. The sun began to rise and set in different portals as taught by Enoch- the constellations began to move from night to night, season to season and age to age!

### THE EARTH HAD TILTED

Prior to the Flood the earth saw no seasons. The earth was encased with waters above creating a greenhouse effect and the ground was watered with mist created by the tropical conditions.

**Genesis 1:6** And Jahuwah said, Let there be a firmament in the midst of the water, and let it be for parting between water and water!

**Genesis 1:7** And Jahuwah made the firmament and Jahuwah parted between the water which was underneath the firmament, and between the water above the firmament.

**Genesis 1:8** And Jahuwah called the firmament, Heaven and Jahuwah beheld that it was good...

**Genesis 2:6** But there went up from the earth a mist and watered all the face of the ground.

The Earth without a tilt would be layered into climate bands that would get progressively colder as you moved away from the equator, and depending on the water layer above the oceans may not have absorbed as much heat so varying temperatures could have been extreme. Humans would likely congregate in the planet's tropical midsection. Earth's poles would always be perpendicular to the sun and the sun would always be just on the horizon 24 hours a day every day.

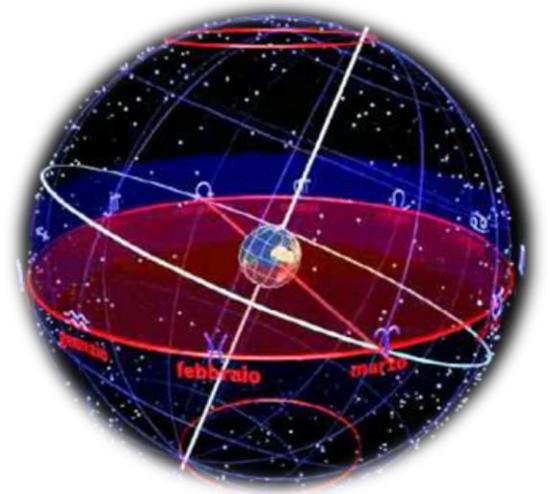

If the habitable world were a humid tropical zone like the rain forests of the Congo, unrelenting rainfall would quickly erode soil in any areas cleared for farming, and would leach nutrients down below root level, swiftly rendering tilled land infertile for crops. The result would be that humans would only be able to live with low population densities, with limited agricultural productivity.

Once Adam and Chavvah left the Garden of Eden the land would indeed seem to be cursed.

**Genesis 3:17** And to Adam He said, Because you have listened to the voice of your wife and have eaten of the tree, of which I commanded you, saying, You shall not eat of it! The ground is cursed for your sake. In pain shall you eat of it all the days of your life.

Those would be the earthly affects but what of the celestial? If the earth tilted, as written in the Book of Enoch, to its current 26 degrees, anyone familiar with the stars would notice immediately.

The heavens appeared to have changed and the STORY of MANS REDEMPTION premiered for the first time in the stars as Jahuwah aligned our planet perfectly with the mazzaroth- and time began to play out.

**Genesis 5:29** And he named his name Noah, saying, This one will **REST US** from our works, and from the distresses of our hands, and **from the earth of which the Elohim Jahuwah cursed.**

**Fast forward a few hundred years-**

**Genesis 8:19** And all the wild beasts, and all the cattle, and every winged creature, and every reptile moving upon the earth, according to their type came forth from the ark

**Genesis 8:20** And Noah built an altar to the Elohim. And he took from all the clean cattle, and from all the clean winged creatures, and offered them for a whole burnt offering upon the altar.

**Genesis 8:21** And Elohim smelled the scent of pleasant aroma. And the Elohim Jahuwah said, considering, I will not add yet to curse the earth on account of the works of men, for the thought of man clings upon the wicked things from his youth. I will not add then still to strike all living flesh as I did.

**Genesis 8:22** All the day of the earth, *seed* and *harvest*, chilliness and sweltering heat, *SUMMER* and *SPRING*, day and night, will not be caused to cease.

Jahuwah chose Noah to release the curse placed on the earth. He placed him on the ark and brought him over to the new world of 365 days *AND* as we see in Gen. 8:22... SEASONS! This enabled the whole earth to become more inhabitable to man.

**Genesis 9:1** And Jahuwah blessed Noah, and his sons, and said to them, Grow and multiply, and **fill the earth and dominate it!**

**Prior to this Jahuwah had told man to multiply and dominate, but this is the first time Jahuwah said FILL the earth too!**

## MILLENNIAL COUNT-DOWN

Jahuwah had changed time and set HIS clock in motion to count down to the MILLENNIAL KINGDOM. Let us see if the scriptures play this out!

**Genesis 6:1** And it came to pass when many men began to become upon the earth, and daughters were born to them.

**Genesis 6:2** And the sons of Eloah were beholding the daughters of men, that they are good, they took to themselves women from all of whom they chose.

**Genesis 6:3** And Jahuwah Eloah said, No way should my Ruach stay with these men, on account of their being flesh; and their days will be **120 REVOLUTIONS OF TIME**.

About the time that Noah had gone to his great-grandfather Enoch, Jahuwah was pretty fed up with what was going on here on earth. So HE set HIS timer in motion- a countdown to future events. But, Jahuwah wasn't placing a timer on a single man's lifespan of 120 years but all of mankind- 120 Jubilees!

Not true you say! No MAN is to live past 120 years... Really? Tell that to Jehoiada!

**2Chronicles 24:15** But Jehoiada became old, and was full of days when he died. He was **a hundred and thirty years** old when he died.

Or Ishmael-

**Genesis 25:17** And these were the years of the life of Ishmael, **a hundred thirty-seven year**. And he expired and died, and was gathered to his people.

Or Jacob Israel-

**Genesis 47:28** And Jacob lived in the land of Egypt seventeen years: so **the whole age of Jacob was an hundred forty and seven years**.

Thus, Jahuwah set the clock in motion to move towards the MILLENNIAL KINGDOM and gave man 4000 more years to figure it out... Or just FOUR MORE DAYS as Jahuwah counts a thousand years as a day, and we are fast approaching the sunset of the sixth day.

For one hundred twenty years, Noah had been preaching to the world of their evils. He pleaded with them to repent and come to Jahuwah.

For one hundred twenty years, he did not cease to warn the wicked both, by word and deed, of the wrath of Jahwah hanging over their heads.

**Book of Jasher 5:6** Jahwah said unto Noah and Methuselah:

**Jasher 5:7** Speak and proclaim to the sons of men, saying: Thus saith Jahuwah, return from your evil ways and forsake your works, and He will **WITHDRAW THE TRIBULATION** that He has declared upon you, and it will not come to pass.

**Jasher 5:8** For thus sayeth Jahuwah: Behold, I give you a period of 120 years. If you forsake your evil ways and return to Me, I will withdraw the **TRIBULATION** which I have declared upon you. It will cease to exist.

**Jasher 5:9** So Noah and Methuselah spoke all the words of Jahwah to the sons of men, day after day, constantly speaking to them.

**Jasher 5:10:** But the **SONS OF MEN REFUSED TO HEAR AND OBEY THEM**. They were stiff-necked and **REFUSED TO LISTEN TO THEIR WORDS**.

For 120 jubilees Jahwah has sent His spokesmen, the prophets, to instruct and teach man His Word. But just as in the days of Noah, they have refused to listen and believe that judgment is coming upon the earth.

**Luke 16:31** Then he said unto him: If they hear not Moses and the prophets, ***neither will they be persuaded, though one rose from the dead.***

**Jahuwah did indeed draw a line in the sand and the countdown began. Why is this point important?**

Because there are many of us who are being called to return to our Creators Division of Time and Enoch being the *SCRIBE of TIME* was sent back to this end-time generation, *as witnessed in the discovery of the Book of Enoch in the Dead Sea Scrolls*, in order to restore the true mo'ed appointed times. BUT- the problem with the Enochian division of time is that it is different than what we experience with our modern year.

Enoch teaches about a year of 360 days (a complete circle), plus four additional season marker days bringing the year to a 364<sup>th</sup> day **“Perfect Justice”**- yet, we have this pesky 365<sup>th</sup> day in which it takes our earth to return to the same place in relation to the sun, for example from the spring equinox to spring equinox or from summer solstice to summer solstice. This is called a solar (sun) year.

The urban dictionary defines “Perfect Justice” as *doing something that is right for everyone*. And when time has ticked down- and the New Heaven and New Earth is returned to the 364<sup>th</sup> day *Perfect Justice* will have been had.

**Enoch 74:12** ... And the sun and the stars bring in all the years exactly, so that they do not advance or delay their position by a single day unto eternity; but complete the years with perfect justice in 364 days.

**I can hear you now- But... But... Jahuwah changed time on several occasions...**

**Jasher 88:62** And the children of Israel pursued them, and they still smote them in the road, going on and smiting them.

**Jasher 88:63** And when they were smiting, the day was declining toward evening, and Joshua said in the sight of all the people, Sun, stand thou still upon Gibeon, and thou moon in the valley of Ajalon, until the nation shall have revenged itself upon its enemies.

**Jasher 88:64** And Jahuwah hearkened to the voice of Joshua, and the sun stood still in the midst of the heavens, **and it stood still six and thirty moments**, and **the moon also stood still** and hastened not to go down a whole day.

**Jasher 88:65** And there was no day like that, before it or after it, that the Elohim hearkened to the voice of a man, for Jahuwah fought for Israel.

**Joshua 10:12** Then Joshua spoke to the Elohim in the day Jahuwah delivered up the Amorites under the hand of the sons of Israel. And Joshua said, Let the sun stand over Gibeon and the moon over the ravine of Ajalon.

**Joshua 10:13** And the sun and moon stood in position unto Elohim repulsed their enemies. Is this not written in the scroll of the upright? And the sun stood in the midst of the heaven, it did not go forth into descent for the completion of one day.

**Joshua 10:14** And there was not such a day nor former nor latter, so as for Jahuwah to heed the voice of man, because the Elohim joined in war with Israel.

Here we see Jahuwah making time stand still- He did not add to it or take away from it. It STOOD STILL. Did it stand still for the whole earth? Or for just at this place in time? We really don't know for sure, although there is no documentation that massive destruction happened at that time- For if Jahuwah suddenly stopped or slowed the rotation of the earth the land masses would shift. We know from experience that once an object is in motion- like a car, comes to a sudden stop everything else inside the car keeps moving. The evidence would indicate that this time standing still was only at this location. A miracle indeed!

**2Kings 20:9** And Isaiah said, This to you is the sign by the Elohim that the Elohim shall do the work which he spoke. Shall the **SHADOW** go ten stairs or shall it return ten stairs,

**2Kings 20:10** And Hezekiah said, It is a light thing for the **shadow** to lean ten stairs, not thus, but let the **shadow** return ten stairs to the rear.

**2Kings 20:11** And Isaiah the prophet yelled out to the Elohim, and he returned the **shadow** on the stairs of Ahaz in which it went down the ten stair to the rear.

Jahuwah gave Hezekiah more time as we see that the shadows were returned (sent back) but did that affect the rotation of days? Some would argue yes... but in actuality it really only affected Hezekiah's life span.

**YET!!!** All the Enochian websites you go to will try to explain away the 365<sup>th</sup> day- they blame man, NASA, Lucifer... and so on. We see things being explained time and time again similar to this nonsense-

*The year will always have 8736 hours, whether it is a 364 Regular/True Day year of exactly 24 hours per day, or a 365 Sidereal Day year of 23.93425 hours per day, or a 366 Leap Day year of 23.86885 hours per day, and the difference is a reduction in minutes and seconds from a Regular Days, to create these extra days...*

*...each (True) 'Enoch' Day actually starts approximately 4 minutes later than the previous Enoch day; and so by the end of the first Sabbath of the year (which equates to 7 days) we should see a true day that starts approximately 27 minutes later than its Gregorian 'equivalent' (day). By "Trumpets" we will have gained back 1/2 of a day + 3 hours (of the 1 false sidereal day that they*

'added')...and the Sabbath will start on another Gregorian day (eg. Sun to Mon) by the end of the year, at which time we have regained all the parts of the whole (added) day)...making the year 364 days (as it truly IS); time interval, from equinox – equinox. **Blah... blah... blah...**

See how desperate we are to make something fit where it doesn't! SHAME ON US- We are taking away **JAHUWAH'S OMNIPOTENCE!!** WE cannot make the sun rise another day by adding or taking minutes –

The celestial FACT is that not each day is 24 hours by the movement of the heavens, due to our elliptical orbit around the sun. The longest day for the whole globe is the **winter solstice**– because we are closer to the sun on the December solstice than we are at the June solstice and near the spring and fall equinoxes the days are *less* than 24 hours long.

When we're closest to the sun, our planet is moving a little faster than average in its orbit. That means our planet is traveling through space a little farther than average each day. The result is that Earth has to rotate a little farther on its axis for the sun to return to its noontime position. Hence, the longer solar day and this is also why the winter is a shorter season. (*Another one of the blessings!*)

Jahuwah has flawlessly orchestrated His heavens to move in its own mathematical rhythm. WE do not control the heavens despite our efforts to neatly chop it up into perfectly segmented parts! **JAHUWAH – OUR CREATOR** caused the 365<sup>TH</sup> day to happen WHEN HE SET the count-down in motion.

**Mathew 24:34** Verily I say unto you, This generation shall not pass, till all these things be fulfilled.

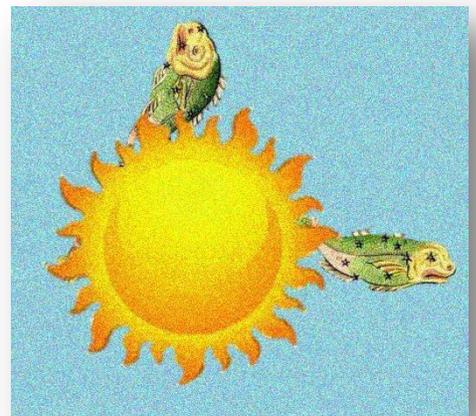

## THE "AGE"

Ha' Mashiach said that this **generation** will not pass away before seeing His second coming. This word generation means **AN AGE**- What is an "AGE" and how do they play into Jahuwah's plan?

The current AGE is marked by which star constellation rises with the sun at the Vernal Equinox.

At the time of the Eden Creation was the AGE of Taurus- Shur (*Hebrew*) the Bull. This is the Age of Adam who had to work the land as a beast of burden.

The AGE of Shur was 2664 years long, which then brings us to the AGE of Aries-Taleh the Ram at the time of Noah and the age of animal sacrifices.

**Genesis 8:20** And Noah built an altar to Jahuwah. And he took of every clean animal, and of every clean bird, and offered burnt offerings on the altar

The AGE of Taleh was 1800 years which gives way to the coming of ha' Mashiach the FISHER of MEN in the AGE of Pisces-Dagim the Fishes.

Unlike the constellations of the mazzaroth where the first constellation at the vernal equinox is Pisces, followed through the seasons by Aries, Taurus, Gemini, and so on, whereupon the cycle returns to Pisces and through the mazzaroth zodiacal signs again, **the astrological ages proceed in the opposite direction or order** –termed **RETROGRADE**. Therefore, the Age of Aquarius - D'li the **LIVING WATERS** follows the Age of Dagim.

Since man has redefined JAHUWAH'S calendar and divided the mazzaroth zodiac into even portions with each sign of the mazzaroth comprised of 30 degrees, each astrological age with this calculation might be thought to last about 72 (years) × 30 (degrees) = about 2160 years. This means the Sun at the vernal equinox is moving backwards at the rate of one degree in seventy-two years, one constellation (on average) in about 2160 years, and the whole twelve signs in about 25,920 years, sometimes called a Platonic Year.

However there are actually **THIRTEEN MAZZAROTH CONSTELLATIONS, each of varying sizes. Therefore no two ages are of equal length.**

<b>Actual Mazzaroth Constellation Dates</b>			
<b>Name</b>	<b>Dates with Sun</b>	<b>Days Long</b>	<b>Approx. Years in Age</b>
Virgo	Sept. 16-Oct. 30	45	3240
Libra	Oct 31- Nov. 22	23	1656
Scorpius	Nov. 23-Nov. 29	7	504
Ophiuchus	Nov. 30-Dec 17	18	1296
Sagittarius	Dec. 18- Jan. 18	32	2304
Capricorn	Jan. 19-Feb 15	28	2016
Aquarius	Feb. 16- Mar 11	24	1728
Pisces	Mar. 12- Apr. 18	38	2736
Aries	April 19 – May 13	25	1800
Taurus	May 14 – June 19	37	2664
Gemini	June 20- July 20	31	2232
Cancer	July 21- Aug. 9	20	1440
Leo	Aug. 10- Sept. 15	37	2664
<b>TOTAL</b>			<b>26,280</b>

Many astrologers find ages too erratic based on the vernal point moving through the randomly sized MAZZAROTH CONSTELLATIONS and, instead, round all astrological ages to exactly 2000 years each.

In this approach the ages are neatly aligned so that the age of Taleh is found from 2000 BC to 1 AD, the Dagim age 1 AD to 2000 AD, the Deli- Aquarian age 2000 AD - 4000 AD, and so on. This approach is not consistent with Jahuwah's clock works and the precession of the equinoxes.

Based on precession of the equinoxes, **(Like a clock ticking off minutes)** the "AGE" of Dagim which is 38 degrees in size would take 2736 years to complete, thus in order to know exactly where we are on JAHWAH's timepiece we could calculate from the time of this creation up to the current year. But all experts agree we are now in the closing era of the Age of Dagim, and on, or near the cusp of the Age of D'li.

Although many experts consider the entrance into a new astrological age being not a single moment of time as many of the constellations have some overlapping stars, then at the cusp one age initiates its influences in a slowly increasing way before the end of the previous age.

Jah'shua said-

**Mathew 28:20** Teaching them to give heed to all as much as I gave charge to you. And behold, I am with you all days until the **completion of the AGE**. Omein. (APB)

**Mathew 28:20** teaching them to observe all things, whatever I commanded you. And, behold, I am with you all the days **until the end of the world**. (MKJ)

Of course man, at the direction of Heylel a.k.a. Lucifer has tried his best to muck things up. Even at the heart of this ongoing debate of 364 days, man is still trying to get his fingers into it to, leaving most of us who are seeking spiritual truth and knowledge of ancient ways at a loss, feeling hopeless, as to ever being able to reckon Enoch's days. But the time is not yet- we are yet babes in this understanding and it is our job to learn of the signs of the time. Know the stars of heaven- understand ancient knowledge and teach it to others, so that all may know and **recognize the sign of the return of day 364**.

**Mathew 24:3** And in his sitting down upon the mount of olives, there came forward to him the disciples in private, saying, Tell us when these things will be and **what is the sign of your arrival and the completion of the age?**

**Mathew 24:22** And **unless those days were cut short** not even was any flesh delivered. **But on account of the chosen ones those day shall be cut short** (to 364?)

**Mathew 24:24** For shall arise false messiahs and false prophets, and **they will give great signs** and miracles, so as to mislead, if possible, even the chosen ones.

**Mathew 24:29** And immediately after the affliction of those days, the sun shall be darkened and the moon shall not give its brightness, and the stars shall fall from the heaven and the forces of the heavens shall be shaken

**Mathew 24:30** And then shall appear the SIGN of the son of man in the heaven

**Mathew 24:36** But of that day and hour no one knows, no, not the angels of Heaven, but only My Father.

**Mathew 24:37** But as the **days of Noah were**, so shall be the coming of the Son of Man.

**Mathew 24:44** On account of this you also be prepared! For in which hour you think not, the son of man comes.

There will be a great sign in the heavens that will announce the coming of Mashiach. The days are cut short to 364 as the stars appear to fall from the sky in their announcement- declaration- **SIGN** of the return of our KING. You think not!

**Mathew 2:2** saying, Where is the one having been born King of the Hebrews? For we beheld **HIS STAR** in the east and we came to do obeisance/homage to him.

**Mathew 2:10** And beholding **the STAR**, they rejoiced a great joy exceedingly.

In the meantime we need to recognize and embrace the role of Noah and the “Rest” oration he brought with the setting of day 365. For without it we would not move forward to the **END of DAYS**.

## WHAT'S THE POINT

If we cannot reckon our days to 364 like Enoch instructed what is the point? We can just worship on any day until all is set right... WRONG!

**Enoch 1:1-2** The words of the blessing of Enoch, wherewith he blessed the elect and righteous, **who will be living in the day of tribulation, when all the wicked and godless are to be removed.** And he took up his parable and said –Enoch a righteous man, whose eyes were opened by Elohim, saw the vision of the Holy One in the heavens, which the angels showed me, and from them I heard everything, and from them I understood as I saw, but **not for this generation, but for a remote one which is for to come.**

**We aren't there yet-** but we are close enough that Enoch is now being revealed as an end time witness as never before. We are the ones who are first being called in this last generation to watch, learn and

witness. Just as the Chag Mo'ed- the appointed feasts are a practice of future events- so is living the instructions given in Torah, Enoch, Jubilees and other inspired writings as to the division of days.

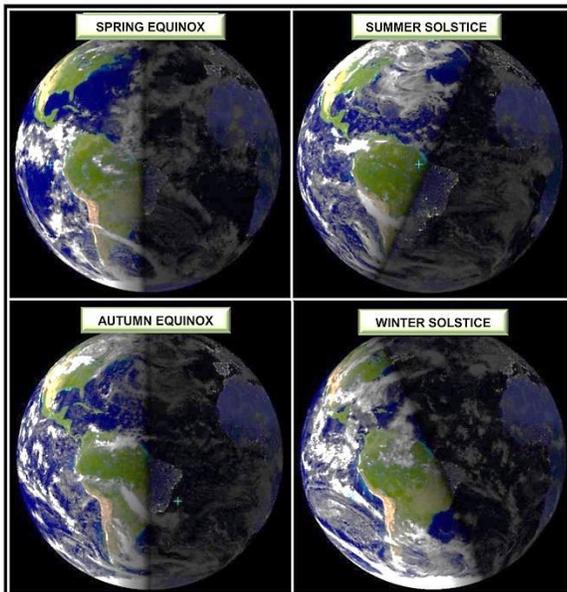

With all the facts we have, we can with confidence, reconstruct a division of time that is both proper and pleasing to Jahuwah.

**FACT: OUR CREATOR INSTRUCTS US WHEN TO BEGIN THE YEAR-**

**Exodus 12:2** This month *shall be* to you the beginning of months. It shall be the first month of the year to you.

This day is Spring Day 1 or Aviv 1.

Enoch describes the last day of the year as being one of equal parts sunlight and darkness. We must remember that Enoch was getting this information from the Malekim of Jahuwah- as he, Enoch, was in the heavens looking down at earth. As Enoch was being taught what the seasons will look like he would have seen the shadow cast by the sun dividing our planet in half on the day of equinoxes. This has nothing to do with clocks- or refracted light.

It is the shadows that tell the story of the season! And that is what Enoch saw- half-light and half-dark, not nano seconds of length of light as marked by a clock.

But wait!... you say... Jah'shua **SAID** there was 12 hours of light in a day... (*according to his Rolex?*)... so that means the equinox is equal day and night. Right?

It is written in the book of Jubilees that **two parts are given to the light and one part to the evening** –

**Jubilees 49:10** Let the children of Israel come and observe the Passover on the day of its fixed time, on the fourteenth day of the first month, between the evenings, from the third part of the day to the third part of the night, **for two portions of the day are given**

**to the light, and a third part to the evening.**

Enoch divided the day into 18 parts. Two thirds of eighteen 'parts' is twelve ( $2/3 * 18 = 12$ ). So, you see Jah'shua was not talking about how many hours a day length is according to the clock. Jah'shua was making an Enoch reference in a parable.

We also know as witnessed in the Dead Sea scrolls, that the Temple schedule had Aviv 1 always on the 4<sup>th</sup> day of the week. (Not to be confused with roman Wednesday).

**FACT:** Enoch details how the months of year are divided-

Enoch 72 gives great detail how the shadows increase and decrease month by month. We are also instructed to count our months with 30 days each plus an addition of four seasonal marker days.

(You can find in-depth teachings on Enoch 72 @ [RemnantOfTheLight.net](http://RemnantOfTheLight.net))

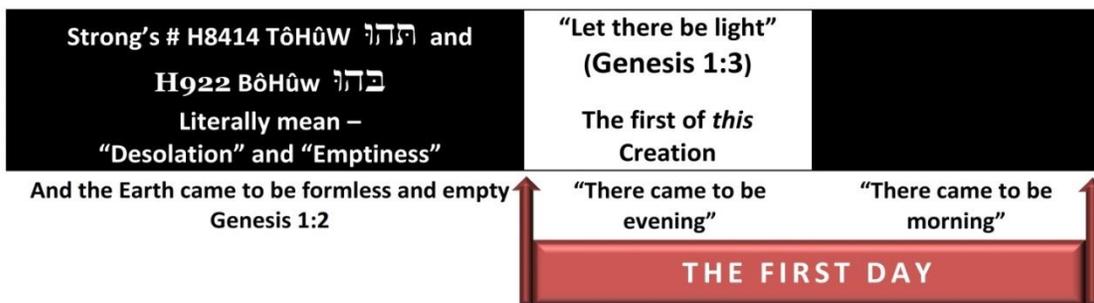

**FACT:** A day is from sunrise to sunrise-

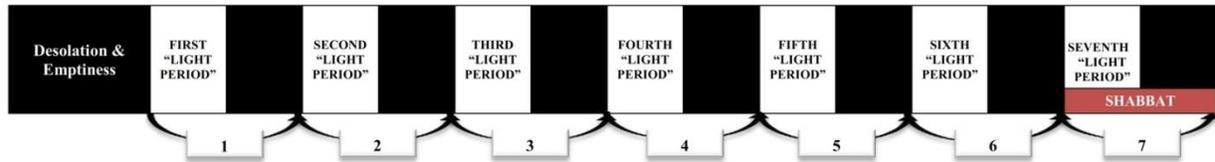

**Keil and Delitzsch Biblical Commentary:**

*"It was not till after the light had been created, and the separation of the light from the darkness had taken place, that evening came, and after the evening the morning; and this coming of evening (lit., the obscure) and morning (the breaking) formed one, or the first day. It follows from this, that the days of creation are not reckoned from evening to evening, but from morning to morning. The first day does not fully terminate till the light returns after the darkness of night; it is not till the break of the new morning that the first interchange of light and darkness is completed".*

**The First Book of Moses, (p. 51)**

*"The first evening was not the gloom, which possibly preceded the full burst of light as it came forth from the primary darkness, and intervened between the darkness and full broad daylight. It was not till **after the light** had been created, and the **separation** of the **light** from the **darkness** had taken place, that evening came, and after the evening the morning...It follows from this, that the days of creation are **not** reckoned from **evening to evening**, but from **morning to morning**..."*

**The FACT** is that the sun comes up to mark the start of *the day* and marks the start of **A DAY**- the sun goes down to end *the day* but **A DAY** continues on through the night hours as the heavenly cogs advance the lights until just before sunrise when *the day* beings anew.

**Genesis 1:1-5** In the beginning Jahuwah created the heavens and the earth. And the earth came to be formless and empty, and darkness was on the face of the deep. And the Ruach of Elohim was moving on the face of the waters. And Elohim said, "Let light come to be," and light came to be. And Elohim saw the light, that it was good. And Elohim separated the light from the darkness. And Elohim called the light 'day' and the darkness He called 'night.' And there came to be evening and there came to be morning, the first (ECHAD) day.

The author purposefully used the word Echad "United Day"- Not Rishone first day.

The word 'day' has different meanings depending on the context in which it is used. When Jahuwah **called the light 'day'** - that word was referring to the period of daylight. In the expression ***the evening and the morning, the united (first) day***, united can also mean **COUPLED**- What we are being told is that Day [time] and Night [time] are coupled together- united into a "Day". In other words this second term for 'day' is a twenty-four hour period.

**That is all we need to know about determining A DAY- the sun comes up. Pretty simple.**

**Fact: We are to count-**

We find in Psalms 90 instruction of the wisdom of counting our days- The King James reads:

**Psalms 90:11** Who knoweth the power of thine anger? even according to thy fear, so is thy wrath.

**Psalms 90:12** So teach us to number our days, that we may apply our hearts unto wisdom.

But strangely this verse in the Apostolic Polyglot Bible is written as:

**Psalms 90:11** Who knows the power of your anger? And how to count his days because of the fear of your rage?

**Psalms 90:12** So make known to me your right hand! And the ones being corrected in the heart by wisdom.

**We are the ones being corrected- we the ones who are seeking the true appointed times of our Creator!**

From Aviv 1 we are instructed to count. Whether it is 7 days, 14 days, 50 days or 364 days we count. Each morning the sun comes up and we count it as a day. After counting 364 days we know it is time to watch for the *turn of the year*, the day that advances us that much closer to the return of ha' Mashiach our GROOM and KING. And- as long as we are obedient in our counting, Jahuwah will bless us by allowing us to come into HIS PRESENCE at HIS Set Times!

**ENOCH HIMSELF IS THE FINAL WITNESS THAT THE YEAR LENGTHENED DURING HIS TIME-**

**ENOCH LIVED ON EARTH 365 YEARS. (A COINCIDENCE?)**

**Genesis 5:23** And all the days of Enoch were three hundred and sixty-five years.

**Genesis 5:24** And Enoch walked with Jahuwah, and then he was not, for Jahuwah took him.

Let the count-down continue until the *End of Days* when a New Heaven and New Earth will be restored with the PERFECT 364 day year.

**Revelation 6:12** And when He had opened the sixth seal, I looked, and behold, there was a great earthquake. And the sun became black as sackcloth of hair, and the moon became like blood.

**Revelation 6:13** And the stars of heaven fell to the earth, even as a fig tree casts her untimely figs when she is shaken by a mighty wind.

**Revelation 6:14** And the heaven departed like a scroll when it is rolled together. And ***every mountain and island were moved out of their places.***

**Revelation 6:15** And the kings of the earth, and the great men, and the rich, and the chief captains, and the mighty men, and every bondman, and every freeman, hid themselves in the dens and in the rocks of the mountains.

**Revelation 6:16** And they said to the mountains and rocks, Fall on us and hide us from the face of Him sitting on the throne, and from the wrath of the Lamb;

**Revelation 6:17** for the great day of His wrath has come, and who will be able to stand?

Until then we need to learn the signs of the Creators time piece- and JUST LIKE NOAH- WE WILL KNOW.

**Revelation 22:16** I Jah'shua sent forth my angel to testify to you these things unto the assemblies. I am the root and the race of David, the BRIGHT EARLY MORNING STAR.

**Revelation 22:17** And the Ruach and the Bride say COME! And the one hearing let say, COME! And the one thirsting let COME! The one wanting, let take water of life without charge...

**Revelation 22:20** The one testifying these things says, YES I COME QUICKLY...

**Revelation 21:1** And I saw a new heaven and a new earth;  
for the first heaven and the first earth were passed away...
